GROUP FINANCIAL PERFORMANCE FOR 2002

II) Review of Financial Performance

With effect from 1 January 2002, the Group has adopted the revised Statement of Accounting Standard (SAS) 12 on Income Taxes. In addition, the financial statements of Archer 1 Limited, a special purpose entity (SPE), has been consolidated in accordance with Interpretation of Statement of Accounting Standard (INT) 5: Consolidation - Special Purpose Entities. The comparatives for 2001 have been restated accordingly.

Merger of Overseas Union Bank into UOB

Overseas Union Bank Limited (OUB) was acquired and became a subsidiary of the Group on 20 September 2001. It was subsequently merged into the Bank on 2 January 2002. Accordingly, the financial statements of the Group for 2002 reflect the full year impact of the enlarged operations whilst those of the Group for 2001 included only the last 3 months' results of the OUB Group. The financial data in this report should therefore be viewed within this context.

Swift Integration of OUB into UOB

On 16 June 2002, the Group successfully completed the integration of the operations and IT systems of OUB into UOB. The consolidation of the two banks was achieved in just eight months instead of the originally estimated 12 to 18 months.

The integration has added considerable distribution strength to our consumer market and brought together a greater diversity of products and services for our customers.

With integration swiftly completed, the Group is on track to achieve cost savings of approximately \$250 million from the consolidation of the 2 banks. On the revenue side, the Group will look to realise revenue synergies from an enlarged customer base.

Group Profits

The Group achieved a profit growth of 15.1% for 2002, with net profit after tax reaching \$1,064 million. The increase was mainly the result of higher net interest income, higher fee and commission income, gains on the divestment of Haw Par Corporation, as well as higher profits from associates. These were partially offset by lower dealing income, higher operating expenses, goodwill amortisation charge, and specific provision for loans.

At operating level, the Group's operating profit before goodwill amortisation and provisions increased by 48.5% over 2001 to \$2,005 million in 2002. This reflects our robust income growth and realised cost savings from integration.

Financial Ratios

- Earnings per share (excluding goodwill) decreased by 1.4%, from 81.3 cents to 80.2 cents in 2002. The price over earnings per share (P/E) ratio, based on the Bank's last done share price of \$10.50 on 27 February 2003, was 13.1.
- Return on average shareholders' funds (excluding goodwill), at 9.8%, decreased by 1.5% point from 11.3% in 2001.
- Net asset value (NAV) per share decreased by \$0.04 or 0.5%, from \$8.09 in 2001 to \$8.05 in 2002.
- Total dividend, including the dividend in relation to the distribution in specie of shares of Haw Par Corporation, was 58.8% (2001: 40%), representing a dividend cover of 1.5 times (2001: 2.2 times). Excluding the dividend in specie, the dividend of 40% for 2002 was 2.2 times covered by net profit.

II) Review of Financial Performance

Net Interest Income

Net interest income for the Group rose 51.8%, from \$1,429 million in 2001 to \$2,169 million in 2002. Net interest income continued to be the major contributor of total income, accounting for about 70.4% (2001: 64.3%) of total income.

The higher net interest income was largely attributable to a larger loan base resulting from the acquisition of OUB, and an improved average interest margin.

The average interest margin increased by 20 basis points, from 2.06% in 2001 to 2.26% in 2002, primarily due to the lower cost of funds.

II) Review of Financial Performance

Non-Interest Income

The Group's non-interest income for 2002 accounted for 29.6% of total income. Total non-interest income rose by \$115 million or 14.5% to \$910 million in 2002.

The increase in total non-interest income was primarily attributable to higher fee and commission income, as well as higher profits on the sale of investment securities and associates. Included in the profits on the sale of associates was a gain on the divestment of Haw Par Corporation of \$65 million. The higher non-interest income was, however, partially offset by lower dealing income from securities, derivatives and foreign exchange, as well as lower profits on the sale of properties.

II) Review of Financial Performance

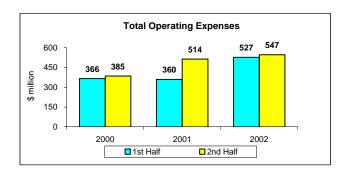

Operating Expenses

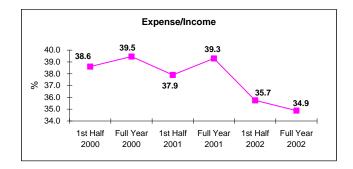

Total operating expenses for 2002 increased by \$200 million or 22.9% over 2001. Both staff expenses and other operating expenses increased in 2002 largely due to the expanded operations resulting from the acquisition and consolidation of OUB into the Group.

Expense to income ratio improved from 39.3% in 2001 to 34.9% in 2002. The improvement reflected the cost savings achieved from the swift integration of OUB into the Group, as well as the continued careful management of expenses by the Group.

IT operating expenses for 2002 increased by \$46 million from 2001 to reach \$199 million, and accounted for 18.6% of total Group expenses.

Provisions Charged to Income Statement

The total provision charge at \$451 million in 2002 was \$286 million higher than in 2001. The increase was dominated by higher specific provisions made on loans that were necessitated by lower collateral value in a lacklustre property market and uncertain economic conditions.

Group NPLs fell by 4.8% or \$289 million to \$5,679 million as at 31 December 2002 as compared to \$5,968 million as at 31 December 2001. Greater China and Regional countries were the main contributors to the drop in NPLs. Correspondingly, Group NPLs (excluding debt securities) as a percentage of gross customer loans decreased by 0.3% point from 9.3% as at 31 December 2001 to 9.0% as at 31 December 2002. Of the total Group NPLs of \$5,679 million, \$3,619 million or 63.7% were in the Substandard category. IV) Segmental Analysis

Business Segments

The Group's businesses are organised into five segments, based on the types of products and services that it provides worldwide. These segments are Individual Banking, Institutional Banking, Global Treasury, Investment Banking, and Others that include mainly property-related activities.

Individual Banking

The Group's Individual Banking segment encompasses personal financial services and private banking. Our personal financial services business delivers a wide array of consumer services that includes the issue of credit and debit cards, loans and mortgages, deposit services and investment advisory services. Private banking offers wealth management services for high networth individuals.

Our substantial customer base expanded further and this business performed strongly in 2002. Net profit before tax grew by 9%, reflecting improved contributions from credit cards and higher net interest income from an enlarged loans portfolio. Loans and advances to individual customers grew by approximately 2% to \$23 billion.

Institutional Banking

Institutional Banking encompasses commercial credit, corporate banking and capital markets. Our commercial credit business serves the small and medium-sized enterprises, while corporate banking serves the large corporations, institutions and governments. Both commercial credit and corporate banking provide customers with a broad range of products and services that include financing options, trade services, custody services and cash management services. Our capital markets business offers corporate finance services, including initial public offering and corporate advisory services.

In 2002, these businesses together recorded a good growth of 35% in net earnings before tax, driven by higher interest income earned from loans and advances and increased contributions from capital market activities.

Global Treasury

The Group's Global Treasury segment extends a wide range of treasury capabilities in foreign exchange, money market, fixed income, derivatives, leveraged trading and futures broking. It is a dominant player in Singapore dollar treasury instruments and a major primary dealer in Singapore Government securities. Global Treasury also provides banknotes services and a full range of gold products, and continues to lead in the provision of Singapore dollar cheque clearing services to correspondent banks.

Net profit before tax rose by 30% to a record \$347 million, reflecting a broad-based improvement in performance in our key lines of business and the effectiveness of cost-saving measures. We benefited substantially from the favourable global interest rate environment, high value-added securitisation activities like product structuring, and cross-marketing initiatives to customers.

Investment Banking

Investment Banking comprises our asset management, venture capital management, insurance and proprietary investment activities. Against a lacklustre global equities market, higher provisions were made for a diminution in the value of our investments in 2002. This impacted the profitability of our investment banking businesses as a whole. Consequently, net profit before tax was 55% lower than in 2001.

Others

Other operations of the Group include property-related activities, stockbroking and the divestment of non-core assets. The higher net profit before tax for 2002 was primarily due to gains on the divestment of non-core assets.

These assets have been included in the assets of the Group.

The holders of the ABCPs are entitled to receive payment comprising both the principal and interest as contracted in the ABCPs but only to the extent that there are available resources in the SPE to meet those payments. The holders of the ABCPs have no recourse to the Group.

The SPE intends to issue new ABCPs upon the maturity of outstanding ABCPs for as long as the SPE intends to carry on its principal activity of investment holding.
