6. REVIEW OF PERFORMANCE

The Group's gross premium grew by 62.7% to \$14.64 million due to new business synergies with the enlarged UOB Group and timing difference in booking of premiums. During the first quarter, a major portion of the gross premiums was required to be held back as unearned premium reserves. This resulted in comparatively lower net earned premiums. Due to this premium reserve strain, underwriting profit was lower than that achieved in the corresponding period. Non underwriting income improved due mainly to a comparison of the gain from sale of investments against the large loss sustained in the corresponding period. Net Profit before tax rose to \$\$1.27 million as compared to a loss sustained in the same period last year.

The Group continued to benefit from the improved economies of scale derived from managing Overseas Union Insurance Limited (OUI).

In the opinion of the Directors, no item, transaction or event of a material and unusual nature has arisen in the interval between 31 March 2003 and the date of this announcement which is likely to affect substantially the results of the Company and the Group for the current financial year.

7. CURRENT YEAR'S PROSPECTS

Global political and business uncertainties continue to weigh heavily on business sentiments. With the maintenance of underwriting discipline and implementation of new business strategies, underwriting profit can be expected to remain satisfactory. Judicious management of the Group's investments will ensure positive contribution to the bottom line.

8. CHANGE IN ACCOUNTING POLICY

The same accounting policies and methods of computation have been followed in the financial statements for the quarter ended 31 March 2003 as compared to the audited financial statements for the year ended 31 December 2002.

9. DIVIDEND

No dividend has been declared for the quarter ended 31 March 2003 in respect of the financial year ending 31 December 2003.
