

Symbol of Longevity

Slurp them up, gulp them down or
twirl them around your fork.

In Asian societies, the length of the noodle is symbolic of good health and long life. That's why you'll find that in most dishes, noodles are not cut to bite-sized portions. And almost all cultures have one prized noodle dish – from the Vietnamese Pho (rice noodles in a beef soup) to the Thai Yam Woo Sen (chilled glass noodles). Invented in ancient China, noodles have since travelled around the world and been reinvented by various cultures into all sorts of shapes and sizes.

The basic noodle is made of wheat flour and water rolled into long strands. In some countries, the wheat flour is substituted with bean paste or rice flour and even mixed with tea. And they're not all long and thin – there are noodles used for making Vietnamese spring rolls, pastries and even honeyed Indian desserts. With so many ways to eat them, you'll have oodles of fun!

Watari Japanese Restaurant

- 25% off ala carte menu

76A Peck Seah Street, Tel: 6222 0484

Did you know...?

Sushi was first made by pressing fish between layers of salt and rice (with a heavy stone) and leaving it for a couple of months until it was fermented. It wasn't until the early 1900s that a chef decided to forego the lengthy fermentation process and prepared it the way it's enjoyed today. You can still sample the original narezushi in some restaurants but do remember that it is an acquired taste.

Choice Selection

Did you know...?

Though known for setting your tongue on fire, not all Thai foods are hot and spicy. The dishes of the Royal Thai cuisine are known for their delicate flavours, hints of spices and aesthetics – which have pleased royal palates over the centuries. And every royal chef has a secret recipe which has been passed down generations from father to son. So if you find yourself feasting on dishes like Saeng Wa (grilled Shrimp Salad) and Musulman (sweet non-spicy curry), relish in that moment of living like royalty!
