

# A Continental Culinary Journey

## Getting a taste of Europe through its cuisine.

Food plays an important part in both European history and culture. It was through food that societies progressed. The discovery of fermentation by the Romans led to the creation of leavened bread in Egypt, which in turn brought about an agricultural revolution that shifted them to a largely grain diet. The reliance and loyalty to their land created a sense of nationalism and the birth of civilisation in Europe.

Today, much of the continent's characteristics are present in their foods. We know the Italians as a charming and close-knit community, evident through their hearty fare – lovingly prepared and served with great pleasure. French cuisine is all about aesthetics, a trait the French people pride themselves with. No expense is spared in French cuisine and the mastery of sauces and pastry dough is the centre of their culinary arts, keeping their recipes classic and constant. In Spain, passion and camaraderie is evident in all and that is why they share a great fondness for foods that go with wine and talk. And as we tuck into the primarily vegetarian cuisine of the Mediterranean, we soak in the gentle climate that nurtures the land's bounty.

### Did you know...?

In history, Italian communities have developed in isolation and their cooking methods are often unique to themselves. Differences aside, Italian cuisine can be characterised as flexible – one that builds itself on variation. That is why, you'll never find two dishes of spaghetti bolognese tasting the same.

And you could credit the Italians for their profound influence on culinary traditions elsewhere in Europe. In 1533, the marriage of the future Henry II of France and Catherine de Médicis laid the groundwork for French 'haute cuisine' when she brought her own cooks and pastry-makers. The Italians were also believed to have been the first to use the fork and set the order of courses in a meal.

## Did you know...?

Paella (pah-eh-yuh) derives its name from the pan it is cooked in – a paellera (Valencian for 'pan'). This glorious rice dish is actually more Arabic than Spanish but retains its place as a centrepiece for special occasions. It is best cooked outside over an open wood fire and it is not rare to find a huge paella pan going while festivities proceed in the East of Spain.

The original paella was the food of commoners and so contained a little bit of everything on hand. Today it is generously prepared with mussels, chicken, prawn, clams, chicken, green beans and other vegetables.
